

Investing in Bruns Eco Village

Divesting from standard investment funds and investing ethically empowers you to influence the future.

Bruns Eco Village is a healthy sustainable community that may act as a flagship for further sustainable villages. Investment returns are generated from the ongoing lease payments made by residents of the village. Expected returns are higher than bank interest rates.

Investment structures will be in place in 2017.

Contact us through our website or email askbev@brunsecovillage.com.au and we'll be in touch with an Investor Package as soon as possible.
